

NUDE & BOUDOIR

SURREALISM & THE NUDE

For Exhibition & Publication

This project takes a leap into the world of the surrealist; the world of Salvador Dali and Man Ray, where imagery depicts unnerving, illogical scenes of the nude human form and incorporating techniques that allow the unconscious mind to express itself.

Will be exhibited in Melbourne, Florence and Paris in 2025, and subsequently published in multiple supporting publications as both advertorial and editorial work.
